

Value Realization Team

At The Resource Group, we stay with you every step of the way.

At The Resource Group, your challenges are our challenges, and sustaining service to your community is the measure of our success.

At The Resource Group, we don't simply write a contract, collect a fee and vanish from sight. Associates from The Resource Group become a long-term, on-site extension of your team, focused on the delivering savings.

The Resource Group permanently places an integrated **Value Realization Team** within your facility, built based upon your organization's size, complexities, and characteristics. This team optimizes operations and drives value throughout your organization. Rather than limiting our scope to med-surg supplies, The Resource

Group helps our Participants realize 8-18% savings across 90% of non-payroll spend including document storage, electronic health records, and reprocessing.

With a portfolio of over 4,000 contracts, and by working side-by-side with your leadership, caregivers and associates, our embedded **Value Realization Team** is dedicated to ensuring your financial prosperity by finding efficiencies across the areas of medical supplies and equipment, pharmacy, construction and facilities, and local and national purchased services.

The embedded **Value Realization Team** works with your leadership, caregivers, and associates to achieve success

LEADERSHIP

Engages Participant leaders and influences change

OPERATIONS

Streamlines hospital supply chain operations

IMPLEMENTATION

Coordinates communication between caregivers and suppliers while managing complex implementation plans

ANALYTICS

Provides advanced analytics to simplify decision-making

"If you're looking for a strategic partner that aligns with your values, your mission, your commitment, and your cost issues, work with The Resource Group."

Lisa Casteel, Chief Financial Officer - Henry County Medical Center, Paris, TN
